

46 Vaccine Projects

■ = Number of randomized patients

* Publications in vaccines, 2019

3268 Vaccine Participants

- Pandemic 28%
- Seasonal influenza 52%
- Therapeutics 20%

PBMC for your Vaccine Development

- We have in-house capabilities to offer cell isolation, T4-T8 extractions, and N2 cryopreservation on site.

Apheresis for Clinical Research

- 2 Haemonetics® apheresis units in-house
- 6 procedures per day
- 3 operators

In-House Support

- Specialists in regulatory documentation
- Experience with ethics committees
- Recruitment specialists
- On-site quality assurance
- PI on site
- Freezers and refrigerators with temperature monitoring and alarms

We prioritize reaching patient recruitment targets and commit the resources and time necessary to ensure long-term patient retention and quality data.

Our Facilities

Central location in Sherbrooke

5 500 square feet

-80°C freezer (1)

-70°C freezer (1)

-20°C freezer (1)

Refrigerated centrifuges (2)

Vaccine/medication refrigerators (3)

Secure medication storage with restricted access

Self-sufficient generator

Multiple exam rooms

Dedicated meeting room

10 minutes from the hospital and radiology center

Free parking adjoining the Research Center

Dedicated monitor rooms

Access to MRI, PET, DEXA scan

Free cognitive assessments

Informative cognitive sessions

SPECIALIZED IN CONDUCTING PHASE II-III CLINICAL TRIALS

Vaccines

Q&T Research Sherbrooke was founded in 1994 and is recognized as a leader in the clinical development of medications and vaccines. It is with pride that the group has contributed to the clinical development of more than 30 Health Canada-approved drugs and vaccines now available to the global population.

Patient Access

- 9 780 patients in database
- 6 500 newsletters subscribers
- Eastern Township population; 320 000
- Greater Sherbrooke population; 212 000
- Age demographics
 - 0-20: 22%
 - 21-44: 32%
 - 45-64: 27%
 - 65+: 19%
 - +50 000 students
- 95% Retention Rate

Our Research Team

- 2 Principal Investigators
- 2 Sub-Investigators
- 6 Research Nurses
- 3 Project Coordinators
- 4 Raters for Cognitive Scales
- 3 Unblinded Research Nurses
- 3 Data Entry Specialists
- 3 CMI Operators
- 2 Recruitment Specialists
- 1 Ethics, Regulatory, Quality Control Specialist
